ROYAL PURPLE
A Senior Year Book
portraying Student
Life and Activities
as they are found at
Kansas State..*

edication

To our Alumni, present and future, who by their Achievements have furthered the Development of the World's Great Industries, and who have striven to solve the daily problems, and who thereby have bettered Humanity, we dedicate this the Ninth Volume of the

Royal Purple

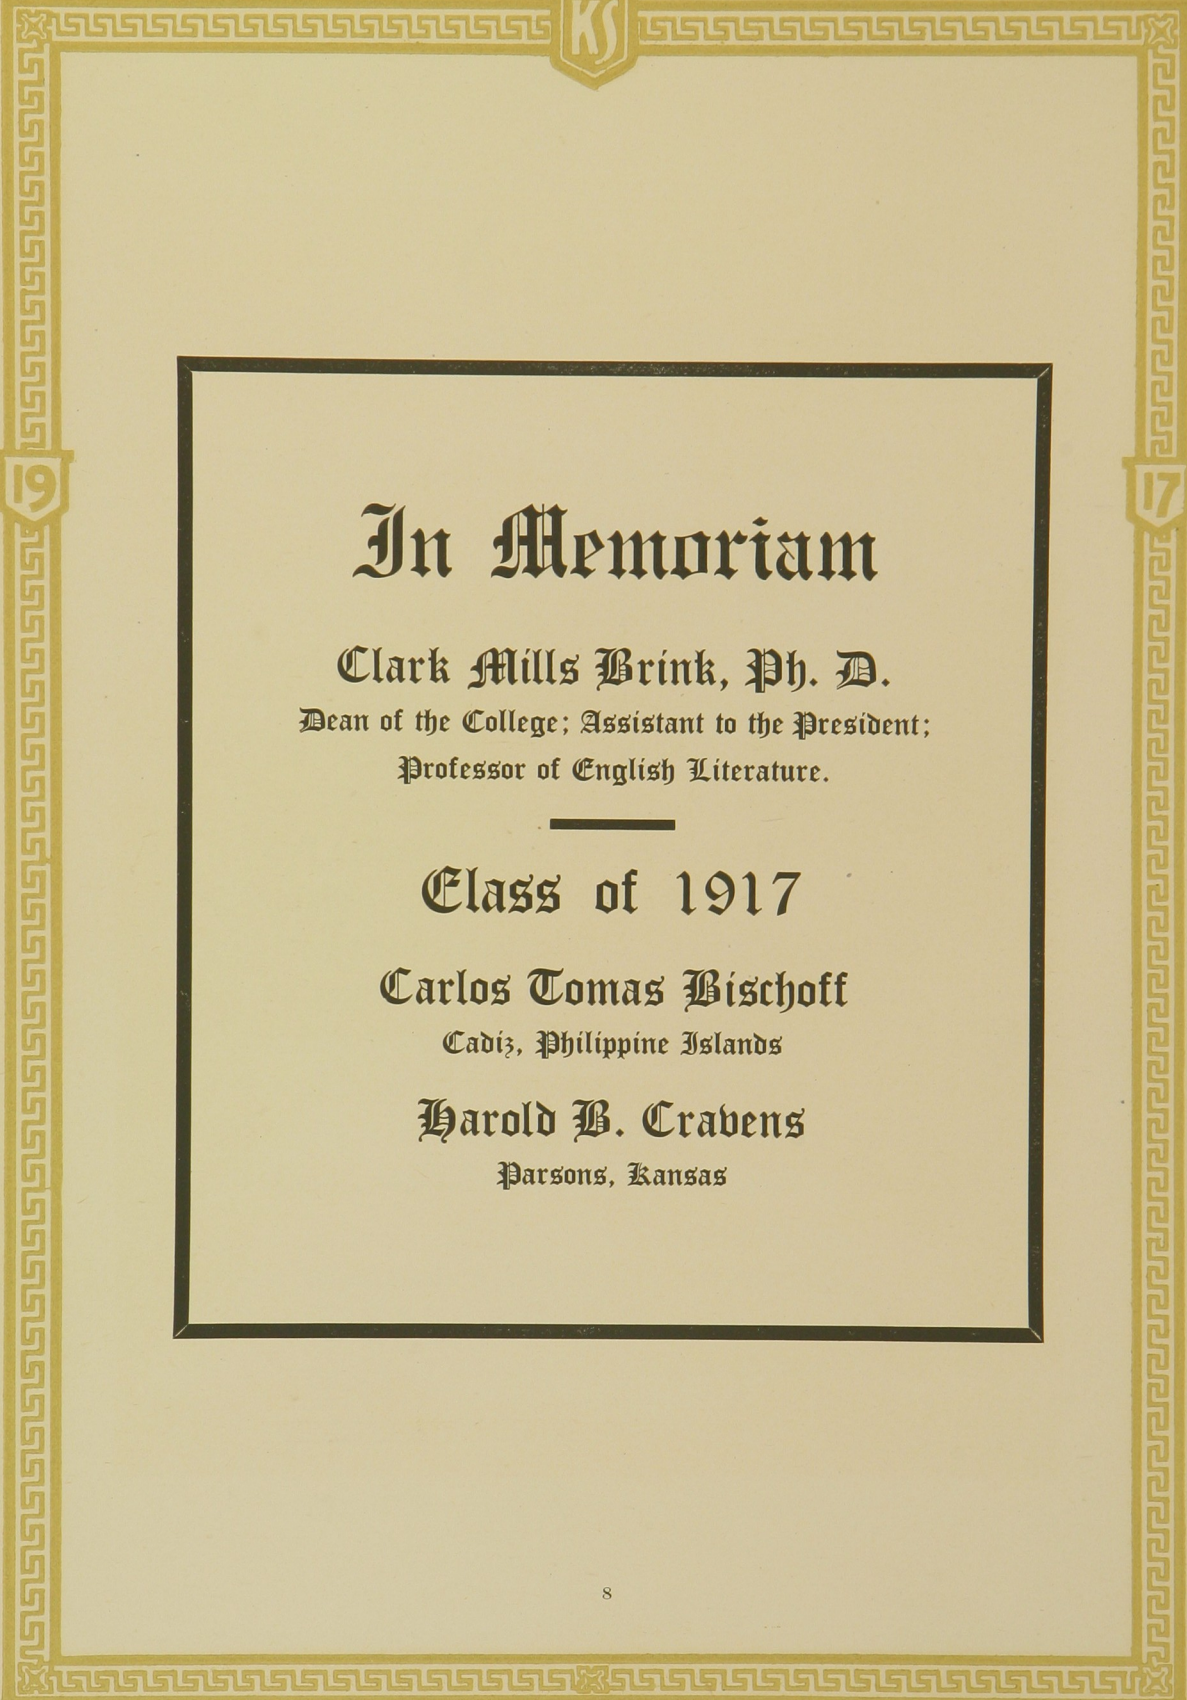

Foreword

his volume of the Royal Purple is published with the intention of portraying the cosmopolitan character and democratic spirit of the student body of the Kansas State Agricultural College, with special emphasis given to those who have placed this college at its present high standing.

For this reason we have dedicated this volume to our present and future alumni. This great state's development along agricultural and engineering lines is delineated by the colored inserts at the various divisions. The men who have made good in athletics, class affairs, scholarship, debating and oratory have been given special consideration and mention.

Perhaps our plan has been inadequately, yet, we hope, conscientiously carried out in the following pages.

Pioneer Days

Sixty-five years ago the Great Plains were mainly an unsettled vast domain, where the native buffalo, the antelope, and the wild Indian tribes dwelled in their unmolested reigns, save from the ventures of the scattered bands of immigrating white man. The virgin soils grew only the scantest vegetation in the western portions. Practically the only means of transportation was the oxen drawn prairie schooner. But it was not long until thousands began to realize the possibilities of this vast area, and a tremendous development followed.

K. S. A. C. Athletics

"Go on Aggies, we're with you," is the war cry of every true and loyal Aggie. Victory through Honest Effort has always been the Watchword of the Aggie Wildcats. Our teams have not only tasted Victory, but they have worn the Laurel Wreath of the Missouri Valley Champions. Kansas long ago set the pace for her sister states, in Reform, Clean Politics, Clean Living, and Fairness at all tasks. Through her sturdy sons she is now setting the pace for her sister states in Clean Athletics, winning Victory when victory is Deserved, taking defeat like good true Sportsmen should.

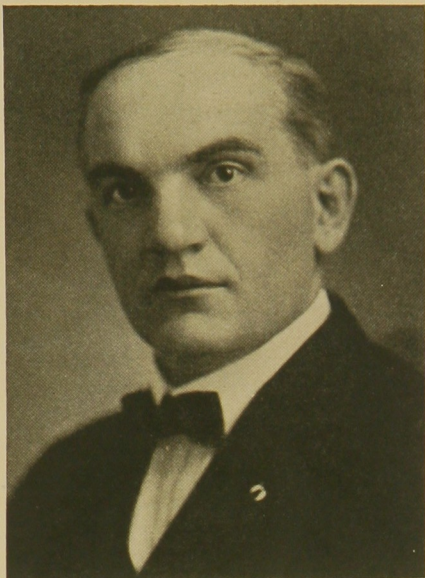

Like the minstrels of old, we'll sing far and wide the fame of our Coaches; we'll regard Championships as Honest Rewards. Yet above all we'll Cherish that Spirit which Kansas has Instilled into her Sons—Loyalty, Fairness, giving Honor when honor is due, claiming Victory when victory is deserved, never forgetting, though we suffer the dregs of Defeat, the Song of the true Aggie, "Go on Aggies, we're with you."

Z. G. CLEVINGER
Athletic Director

Professor Clevenger came to K. S. A. C. from the University of Tennessee, where he also held the position of Director of Athletics and Head Coach. While there his teams won the championship in Football, Basket Ball and Baseball in the Southern Conference. His baseball team batted over 300 and his basket ball team lost only 4 games in 3 years.

Coach Clevenger was a student in Indiana University 1900-1904, where he held the positions of shortstop, half back and the last year captain of both baseball and football teams. Two years he was placed on all western baseball and one year on all western football. This year Indiana voted him their greatest athlete of all time.

ADOLPH SHULTZ

"Germany"

"Germany," track and assistant coach, is one of the most noted football men in history. He was star of the Michigan U. eleven from 1904 to 1908 and captain in his last year.

His record:

1907—All American Center.

1908—Second All American Center.

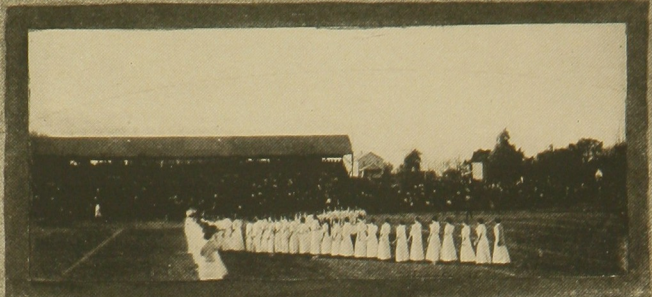

1909—All Time American Center.

1911-1912—Wisconsin Line Coach.

JAMES BAUER

Mr. Bauer is an experienced veteran in gymnasium work, a graduate of Colgate and Springfield Training Schools. For three years he was director of gymnasium at Wooster and for three years director at Ohio University. Mr. Bauer has this past year demonstrated his ability to teach gymnasium work at the Kansas State Agricultural College.

GRINDIRON AFFAIRS

CAPTAIN J. B. BARNES

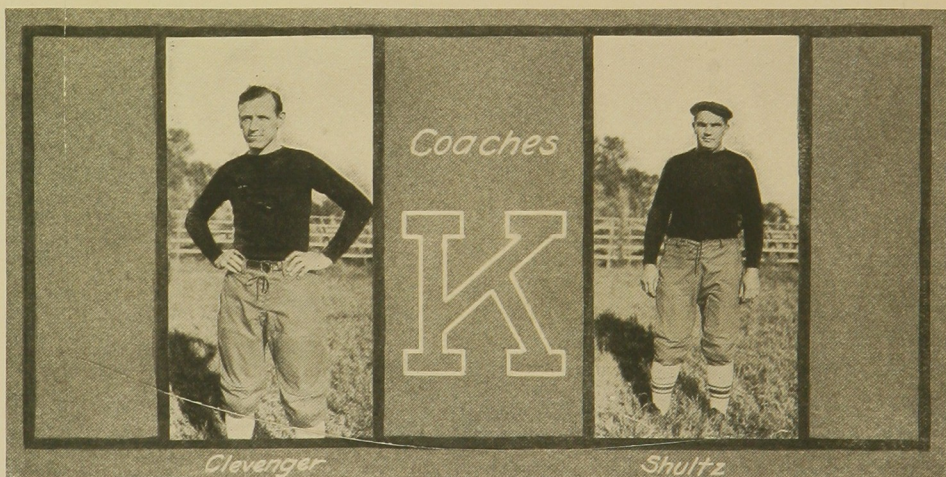

THE AGGIE WILD CATS

The Aggie representation on the All Missouri Valley Football Team consists of Stiff Randalls, left end and Captain elect, and Eddie Wells, fullback, two of the greatest athletes that ever fought on Ahearn Field. Eddie is the only man in the valley who ever made two all Missouri Valley Teams in the same year, he having made the positions of fullback and guard this year in basket ball and football. These men each have one more year to play.

Coaches Clevenger and Germany Shultz have been behind the teams at every jump, and the records alone show their ability in coaching athletics. During the first season at K. S. A. C. these two men have developed teams which have put athletics of the college on the map forever. LISTEN! UNDISPUTED CHAMPIONS IN BASKET BALL, AND TIE FOR THE CHAMPIONSHIP IN FOOTBALL ALL IN THE SAME SEASON. WHY SHOULDN'T WE BE PROUD OF OUR AGGIE WILDCATS?

BERT

EMMET

RASTY

HEINIE

Randalls did it. After the Tiger touchdown and a bad kick it happened this way. Doderill recovered a Missouri fumble on the 45-yard line. "Cap" Barnes slid off tackle for six yards and Wells hit the line for five and first downs. The quarter ended with the ball on Missouri's 35-yard line.

Wells carried four Tigers for a 10-yard buck and Stiff followed with 11 yards around the end. Wells took two through center. While the Missourians were expecting another line buck, Clarke drew back, hurled a sharp pass over the heads of the Missouri back field to Skinner and the score was tied.

"JOHNNY"

"DOD"

"RHODIE"

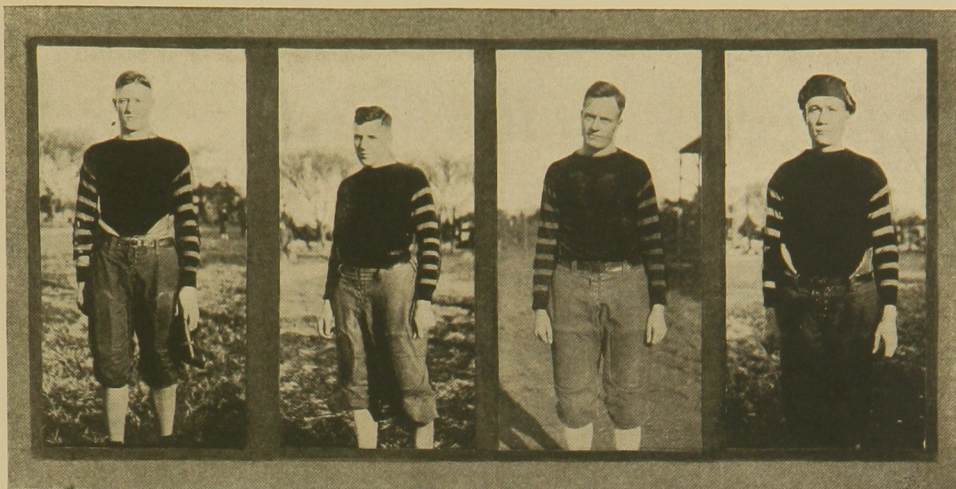

"PETE"

Clarke kicked out to Barnes, and Randalls swung his trusty toe for the seventh point of a 7 to 6 victory for the Aggies.

Although the Aggies outplayed the Jayhawk eleven in every way except in holding the ball they had to be content with the 0 to 0 score. Fumbles undoubtedly prevented a Purple score.

The Purple and White eleven gained by straight football 71 yards more than did the Crimson and Blues. They passed 46 yards to K. U.'s 18. They made 15 first downs to their opponents 8, and twice they held for downs on the five-yard line, the Jayhawks having gained that advantage by the recovery of

WHEDON

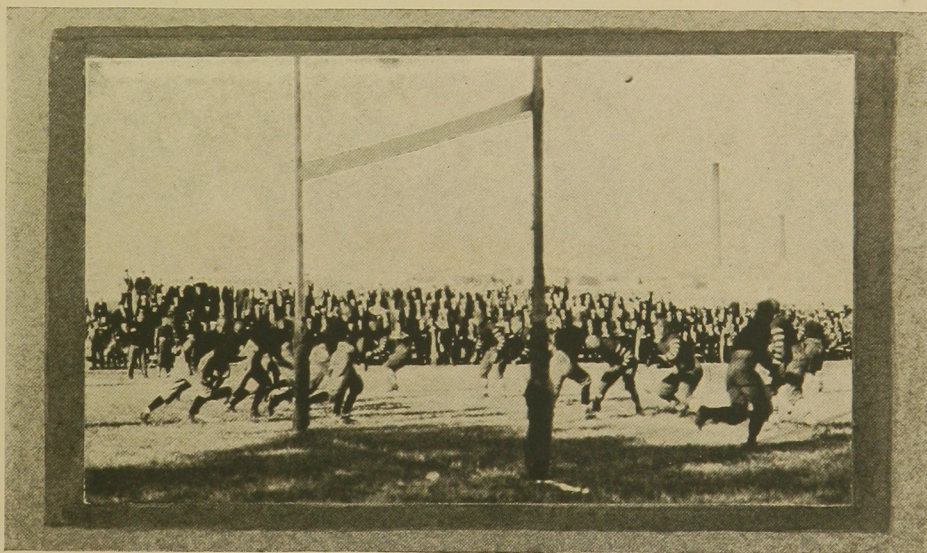

NATE

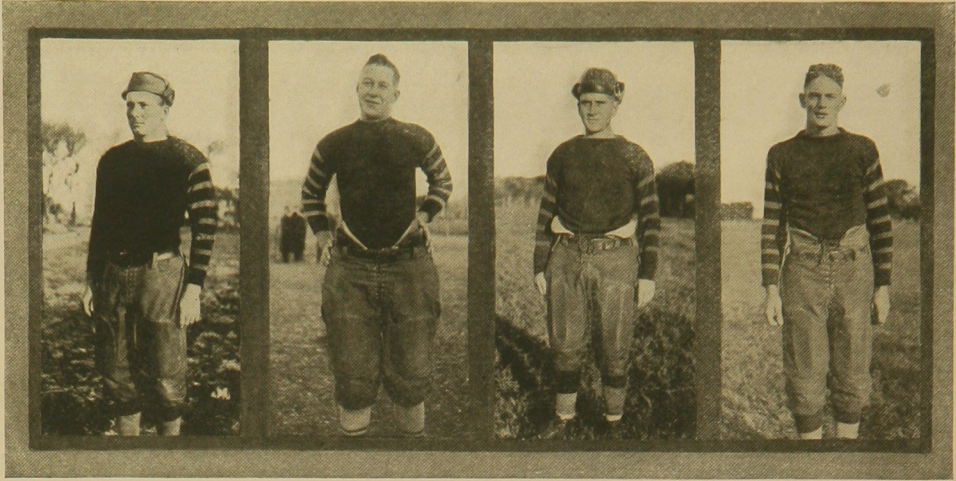

WILDER

HUSTED

their own punts. Twice the Aggies threatened to score, once by the straight football route, only to lose by a fumble and again by a dropkick that was dangerously close. Wright, Bayer and Husted were the chief defenders. Husted ruined a K. U. score by snatching a pass from a K. U. end.

True Wildcat spirit gave the Cornhuskers one of their hardest 1916 battles. Although outweighed 10 pounds to the man, the Aggies surprised their northern neighbors with a show of stellar defense unequalled in the history of the Purple and White warriors. Twice when within striking distance the Huskers were held for downs and a third time they were held for three downs on the two-yard line. The first score resulted from a fumble. The final score was 14 to 0.

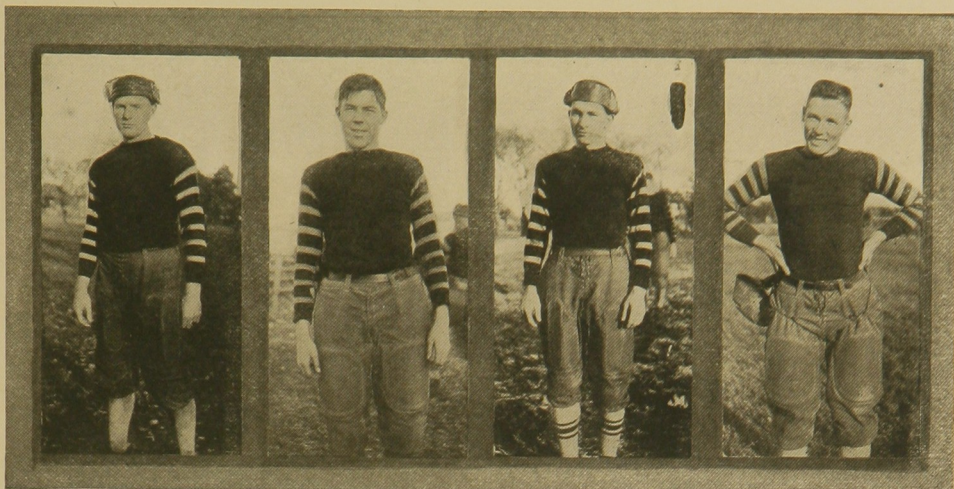

GINGERY "LITTLE PETE" "SLATS" CHAS.

Luck and superior weight overcame the Aggies from point of score, but the indomitable spirit of the Clevenger defense put hope in our hearts and fear in the hearts of future foes.

With the Sooners at their height the Aggies won a kick at Norman. After many futile attempts for gains through the Purple Defense, the Sooners resorted to their passing game. Only the Wildcat fight in blocking passes and Eddie's driving offense backed by Randall's faithful toe gave the Kansans the big end of the 14 to 13 score over the "Red Skins."

The feature of the game was Wells' 35-yard run through the entire Norman team.

"Tex"

FRANKENHOFF

"SULLY"

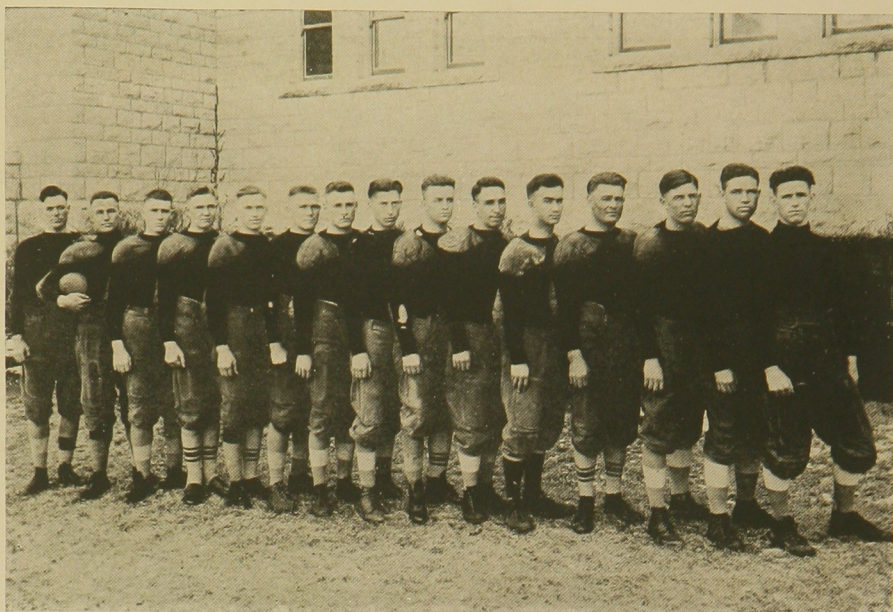

OLIVER

The season's performance was forecasted by the fall of Baker University eleven by a score of 20 to 0.

Two long spectacular runs gave the Aggies the top end of score of 13 to 3 with the Teachers. An 80 yard run by Randells, from the kick-off and a 50 yard pass and run followed by a perfect kick gave the Aggies their lop-sided score.

The feature of the final game was a touchdown by "Rasty" Wright who has filled the position of center for three years. Score with Washburn was K. S. A. C., 47; Washburn, 0.

History of 1917 Basket Ball Season

THE season of 1917 was a decided success. The teams led by Captain MacMillan worked well together and won. No greater basket ball team was ever seen in the Missouri Valley than the one which "Mac" led to the goal of victory.

After starting the season with a mad rush by defeating Washburn 71 to 5 and Bethany 75 to 11, the only slump of the season which the team experienced was the defeat from their brothers at K. U. This defeat attributed to no man or men was short lived for on the way back to camp the Aggie Quintette assisted by the second string men romped the Ichabods again.

Revenge is sweet. To offset the 16 to 34 and the 19 to 27 scores met at Lawrence, "Mac's" men came back strong delivering the worst defeat the K. U. five took during the entire season. Altho K. U. was stronger during the second game, she could not pass our guards for the extra 4 points needed to turn the victory. Proud at having defeated the Jayhawk bird 38 to 9 and 32 to 29, the Wildcats lay in wait for the Cornhuskers who last year kept them from the championship by the narrow margin of 1 and 2 points. The Husky Huskers fight as they would were unable to solve our play. They were forced to return having made in the two games scores of 45 to 13 and 37 to 10.

After the Normals met the defeat of 33 to 29, the "Pikers" from St. Louis made but little resistance to the farmers from Manhattan. By using the second team quite liberally the Aggies were able to make the lopsided scores of 42 to 21 and 33 to 20. With only one day of rest, the Aggies invaded the Tiger Camp to decide the championship. Results were: Two games for the Aggies.

To Our Heroes Who've Fought Their Last Fight

Here's to our faithful warriors,
To our heroes who've played their last game
But whose names will stand forever,
In the Aggie Hall of Fame.

"Rasty" faithful man at center,
In the thick of every fray—
Full of fight and grit and courage,
And a love for honest play.

Skinner, speedy, charging end,
A man who'll be hard to replace,
A nervy fighter from head to foot,
A player men dread to face.

Bayer, man of faith and courage,
When smashing drives hit hard
Crouched and held like a wall of stone,
Our faithful old left guard.

Last but not least our captain
Barnes, of the team that won
Fame that will last forever,
"Well done, old man, well done."

Here's to this faithful quartet,
Barnes and Bayer, Skinner and Wright,
Who on the field knew but one word,
And that was "Aggies Fight."

Railroad Development

Railroad building began in Kansas back in the early 60's. From this time on there were hundreds of miles of railroad built each year within the borders of the great Sunflower State. As the railroads pushed on into the western lands the acreage of the general farm crops increased tremendously. The old prairie schooner was rapidly replaced by the locomotive and the horse drawn wagon. Grazing of large herds of cattle became a leading industry on the western front. Golden fields of grain replaced the vast stretches of scanty vegetation. Better farm homes and small cities began to spring up over night. It was then that Kansas was named "The Garden of the West."

SEN CARS

Fairman

The Tail of the Class of 1917

UNTRUE to all signs and omens the year nineteen hundred thirteen proved to be a lucky one for the Kansas State Agricultural College, for that's the year that the '17s came. We were the first class to enter under the new standard of fifteen entrance units. Just think how much more the '17s know than any others that have gone before! Really we seniors have so much more knowledge in our heads that we know very little "for sure."

The one notable part of our college career was our politics. This so-called unnecessary evil in the management of student affairs began with us in the freshmen year. The whole college has stood aghast at the "tricks that have been turned" by the '17s. We are politicians—everyone of us—to the very core, and we are either on one side of the fence or on the other. Fifty-nine for and fifty-three against! It has stood "thus and so" ever since we began and we take it for granted that on Commencement Day it will still be fifty-nine for and fifty-three against! The first political graft occurred when the former sub-freshmen elected the officers from their own number while the rest of the '17s stood around and looked on. But graft will be punished; for those very same grafters are having to make up extra entrance credits in order to graduate with the '17s. In those same freshmen days we were ordered not to wear caps. This order came from the president, and of course being freshmen, we obeyed. It was not long until the '17s' constitution was printed. Oh! that poor thing is not itself any more! It has been so amended that our printed editions found their way to the waste baskets long ago. I wonder how many of us will ever forget that clause in our old constitution which says that there shall be no dancing by the class unless sanctioned by a two-thirds vote of all those members in good standing. After we grew up we got sufficiently educated to get that two-thirds. In our freshmen days we had the healthy class motto, "D-I-G," but as we grew intellectual, we changed to "Kythe, Science, and Culture." My how we did progress in the use of big words! In our sophomore year a great political party, "Tammany Hall" rose and reached its zenith in our midst. We rowed before them until the Royal Purple Manager was elected. This election was a hard blow to "Tammany Hall," in so far as they had planned for months and years how they were going to edit that wonderful publication according to their own desires. The term following this election some of them went back to the farm, and consequently that once brilliant bunch of politicians had to fall by the wayside.

On May 3, 1915, the platform for the Royal Purple, Volume IX, was passed with sixty-four for, fifty-three against. This platform was supposed to prevent the Manager from getting enough money to start himself in business, and the writer of the history sufficient funds to return home the minute the sheepskins

are passed out. In our freshmen days our secretary's notes covered many pages, every committee report had to be accepted as a "Report of Progress." But now, all such Parliamentary "Rig-a-ma-role" is dispensed with, and the minutes read something like this: Report of Officers—none. Report of Committees—none. Unfinished Business—none. New Business—none, just none! none! none! The twenty-one Scarabs aided by the nineteen XIX take care of the business in some mysterious way before it ever comes up before the class and we are now able to read on our '17s tombstone, "Passed to Rest in Peace."

Our festivities have been numerous and varied. Never will we forget how the upper-classmen ate our pickles and wienies when we were freshmen. Passing over these many passed good times we come to the greatest event that ever took place at K. S. A. C., the Junior-Senior Prom., 1916. There will probably never be such another one given as that elaborate affair. "Only the '17s will ever turn the gym. into a flower garden."

Next you read of the achievements of the '17s. When freshmen we formed the numeral "17" in our chapel section. The effect of the girls in white waists, forming the 17 against the darker background was beautiful—only no one noticed our ingenuity and work of art. There came another chapel day in our junior year when we sat for two and one-half minutes in the Senior section. And to the 17's is due the honor of creating the biggest commotion in chapel in years. It was glorious to sit in the pit that day; but now that it is our own special privilege, the desire is gone.

The '17s have been favored with three girls as class presidents: Stella Gould, Zora Harris, and Frances Hildebrand. But listen to this next achievement! There are thirty-four senior girls engaged. Then, too, you'll miss us when we're gone, for the '17s are taking with them twelve of the best athletes and fifteen of the best debators K. S. A. C. ever had.

The '17s are not numerous. Only a few of us are beautiful. Many of us are brilliant. But all of us are glad that we are '17s.

So is recorded the high places of the history of the class of 1917. It is not complete, but an attempt at a concise one.

The Class of 1919.

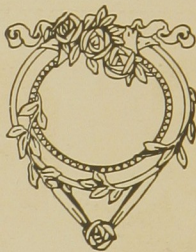

Motto—"Be On The Job."

Colors—Dark Blue and Red.

The Class of 1919 believes in Preparedness. This red-blooded class is going to be ready to assume intelligent leadership as soon as the two remaining classes have drifted off the campus. The sophomores are prominent in college activities and are coming to the front in athletics. Five men starred on the Varsity Football Team, and four have helped to make the Varsity Basket Ball Team the Champions of the Missouri Valley. The girls' basket ball team holds the Askren Trophy for the year 1917-1918.

We held a successful dance and mixer in the Fall term, and toward the end of the Winter term we innovated the Popularity Concert Dance which was a joint Soph-Fresh affair.

This class has chosen as class sponsor and permanent chaperon, Dr. J. G. Emerson, who will also work with and advise the Idea Committee. The Idea Committee is a body of alive and enthusiastic Sophomores whose aim is to develop an even better college and class of 1919.

Students Council

HAMILTON, HEPPE, MEULLAT, GUILFOIL, CUTLER, MOSER,
FRANKENHOFF, KNOTSMAN, FIGLEY, DUNHAM

The object of the Students Council is:

To act as a representative body before the governing and administrative officers of the college in all matters concerning student affairs.

To act as a body of mediation between student organizations and enterprises whenever such service is sought.

To take cognizance of all matters which pertain to the good name and scholarship of the student body, to the end that high standards of honor on the campus and elsewhere may be obtained.

Important recommendations of previous councils.

- Selection of Alumni pins.
- Exemption of E—students from examinations.
- Standard for class athletics.
- Protection of athletic K.
- Auditing books of organizations.
- Rules on hazing.

Important recommendations of the '16-'17 council.

- Support of the Permanent Income constitutional amendment.
- Recommendations regulating student business enterprises.

The Modern Age

The railroad development in Kansas has progressed so thoroughly that today a great network of rails reaches every locality of the state. The grazing lands have given way to waving fields of golden grain. Modern farm homes dot the land, and pure bred herds of stock graze within their limited areas. The old trails have become well surveyed, macadamized national highways. The small villages have grown to great metropolises. Yet only the merest beginning in the development of the state's possibilities has been reached. The engineer, the agriculturist, and the home economist still have their great tasks before them.

Alpha Zeta

The purpose of Alpha Zeta is to band together agricultural students of scholastic attainment that they may improve their ideals and efforts by contact with each other. Alpha Zeta has thirty-seven members on the K. S. A. C. faculty. The fraternity was founded at Ohio University, 1897, and has grown at such a rate that at present there are twenty-five chapters in as many different states.

Phi Alpha Tau

EMERSON, CATON, ADAMSON
MUSIL, MORSE, HANNA, MOSER

OMICRON CHAPTER

Installed December, 1916

Phi Alpha Tau is a public speaking fraternity, partly professional, partly honorary, founded at the Emerson School of Oratory in Boston in 1902. It includes among its members men proficient in the speech arts; but at the Kansas State Agricultural College it is confined to players and winners in oratory. It is the only fraternity which embraces all the speech arts.

The charter members of Omicron Chapter are as follows:

DON L. BURK
J. G. EMERSON
CHARLES R. ADAMSON
JOHN MUSIL

LEO. C. MOSER
JAMES H. BRANHAM
WM. N. CATON
CHESTER C. MORSE

Purple Masque

Sigma Delta Chi

National Honorary Journalistic Fraternity
Organized 1909 *Active Chapters, 28*

The Kansas State Chapter was installed May 4, 1915, and was the twentieth journalistic organization to be granted a chapter of the national fraternity. Since the installation of a chapter of Sigma Delta Chi at this institution, the journalism course has become one of the leading courses in the college; and alumni members of the local organization have distinguished themselves in journalism fields.

THE PURPOSE OF THE WOMEN'S PAN-HELLENIC COUNCIL

- To fix the date of pledge day.
- To regulate the rules for rushing.
- To regulate other matters of the women's interfraternity interest in this college presented to it for consideration.
- To co-operate with the college authorities and all other college organizations in questions of general college interest.

Society Lyceum Committee

FETROW, HARRIS, CUTLER, RUMBEL
WEIBLE, COE, BORLAND, DROLL

For the past nineteen years the Society Lyceum Course, given under the auspices of the eight literary societies of the college, has been a fixture at K. S. A. C.

To execute the considerable amount of work connected with the presentation of the courses each society elects one member to serve for a period of two years. These eight representatives constitute the Lyceum Committee.

The course for the season 1916-1917 consisted of seven numbers, representing a total cost of over twenty-eight hundred dollars. The talent which appeared on the course for the past year is as follows: George Hamlin; Miss Myrtle Moses; Miss Sarah Mildred Willmer; The Melting Pot; Adrian M. Newens; Madam Fannie Bloomfield Zeisler; Miss Ida Tarbell, and Dr. Edward A. Steiner.

Veterinary Medical Association

Organized October, 1906

The object of this association is technical training along veterinary lines, together with such social and literary training as may accompany it. Meetings are held twice each month in the evening and consist of a program and regular business meeting. Members of the faculty and other men prominent in veterinary and allied lines appear before the meetings as well as the members themselves. Upon graduation the members in good standing are presented with skepskin diplomas in recognition of their work.

The Kansas State Collegian is the official student publication of the college. It is published semi-weekly; one issue is delivered on Tuesday, the other on Saturday. It contains all general college news, advertisements of the leading and reliable merchants of Manhattan, society items of the various organizations, and many feature stories, and is eagerly awaited by three thousand students each Tuesday and Saturday at the College Post Office. Not only is the Collegian read by every student and member of the faculty of K. S. A. C., but it goes to more than four hundred and fifty high schools over the state.

The Kansas Industrialist

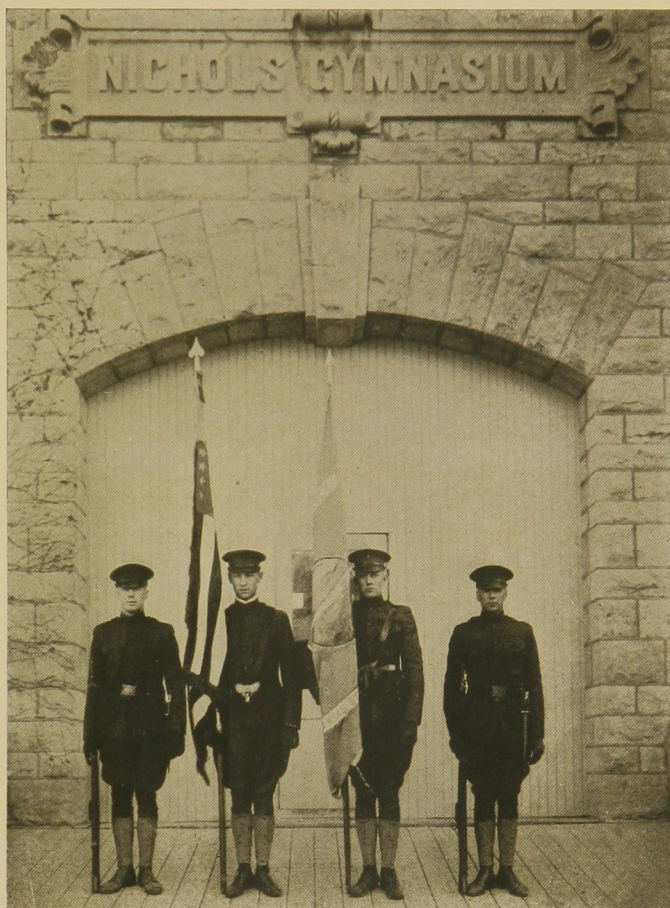

FOUNDED April 24, 1875, *The Kansas Industrialist*, the official publication of the Kansas State Agricultural College, is the oldest paper published by any Kansas College and is among the oldest papers of any sort in the State. In many respects it is unique among college papers. It contains alumni notes and is sent free to graduates of the College. For the purpose of giving effective publicity to College affairs, it is sent free also to Kansas newspapers. The material in the paper is written largely by students in industrial journalism, who help also in the mechanical work on the paper in the printing plant. *The Industrialist* has received high commendation from printers and publishers not only in Kansas, but in metropolitan centers.

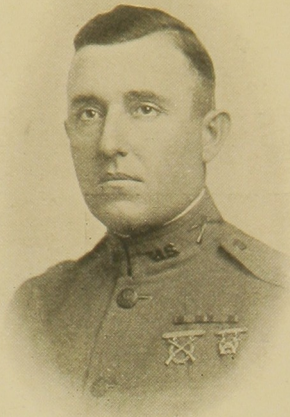

John A. Anderson, who, as president of the college, changed the institution from a classical to an industrial institution, founded *The Industrialist* as an exponent of agriculture and industrial education.

The paper was published by the printing department under the direction of A. A. Stewart, a young man who had formerly been a student in the college but had given up his studies to devote all his time to the superintendency of printing.

Printing had been introduced into the curriculum of the college as an "industrial" in 1873, and when *The Industrialist* was started a number of students were taking the work. According to the catalogue, it was intended primarily for girls, but the enrollment consisted to a considerable extent of boys, though the first issue of the paper announced that "two young ladies captured the printing department's dinner bucket and confiscated the lunch." Mr. Stewart went on to say that "they returned the bucket."

The paper has always been printed by the department of printing, which is the oldest teaching department of its kind existing in any American college. In this department instruction in news writing, newspaper management, and other journalistic matters was given for many years. In 1910, the Department of Industrial Journalism was organized and the head of the department, Charles Dillon, became managing editor of *The Industrialist*. The paper has since that time been edited by the Journalism Department. The President of the College, Dr. Henry Jackson Waters, is *ex officio* editor-in-chief. Nelson Antrim Crawford, professor of industrial journalism and superintendent of printing, is the managing editor. Dr. John Daniel Walters, senior professor in the College, is local editor. Miss Ada Rice, '95, M. S., '12, assistant professor of the English language, is alumni editor.

BROBERG

"DANCE OF THE ROSES"

MYRTLE BROBERG
"DANCE OF THE ROSES"

1916 May Fete

Once each year, from four o'clock until the setting of the sun, the kingdom of K. S. A. C. bows subservient to the rule of the Queen of May. For several weeks before the wonderful day, her subjects prepare for her welcome; and so let us record the history of our May Fete.

The sun arose that morning from behind Old Bluemont with a glory which he condescends to show upon no other day. Before his rays had dried the dew upon the campus, students were busy preparing the throne, truly royal in its pure white and Aggie Purple. At the head of the slope above the throne were erected bleachers, from which the Queen's subjects and visitors from neighboring realms might view her crowning.

Long before the appointed hour many thousand people filled the bleachers and sat upon the grass. But they were not without amusement; forever symbolic of the complete and all powerful rule of the Queen of the May, the learned and dignified professors descended from the thrones of their dominions and frolicked upon the green in a game of baseball.

Just at the stroke of four, there sounded across the campus the sweet clear note of a bugle call. Immediately from behind the trees in the distance appeared the procession. To the stately music of the band, the procession, led by the May Queen and her attendants, wended its way toward the throne.

Symbolic indeed of the joy and happiness was the crown of flowers which was placed upon her majesty's head, and the pageant which celebrated her crowning breathed throughout the same spirit. First came the month of January with the dancing New Year driving the Old Year from his realm. February took us back to the days of Washington with its minuet and colonial men and maidens. March came in like a lion and went out like a lamb, as tradition has ever said it shall. In April the Sun danced forth and drove away the storm clouds, revealing the beautiful rainbow. The winding of the May Poles in the month of May was followed by the dance of Harlequin and Columbine among the roses of June. July waved flags and banners in the patriotic dance. August, after chasing butterflies and gathering flowers, departed, pleading for longer life, Next followed September's Indian Summer and the

rejoicing of October's harvest. In the month of November the Queen's warriors sealed the fate of the Jayhawk Bird who was hostile to the kingdom of K. S. A. C. Last of all came December with her snow-white flakes and Christmas bells. Just as the rays of the setting sun were obscured by the gathering clouds, significant of the return of work and care, the entire caste, four hundred in all, trooped upon the green in a final farewell, the Queen descended from her throne and the May Fete, the most beautiful event of our college year, was ended.

"DANCE OF THE ROSES."

Second Annual Home-Coming Day

IN 1915 Home-Coming Day was established as an annual event, one of The Events of the college year. "Second Annual Home-Coming, Missouri Tigers vs. Aggie Wildcats—Come, Be a Booster, November 11." Thus read the thousands of stickers which were pasted on thousands of loyal Aggie letters after November first. From every direction within a radius of many hundred miles came answers to the call. The eleventh this year came on Saturday, and the week end was indeed a gala day for K. S. A. C.

Friday night the cork flew out of the pep bottle, no corkscrew was needed. A monstrous, enthusiastic crowd, bent on twisting the tiger's tail, gathered at the auditorium. In the yelling and singing, the talks of President Waters, the old grads., and the coaches, pep fairly sizzled and gushed. Furthermore, the pep bottle refused to empty or to freeze up the next day, even though the north wind howled and raved, and the mercury exercised with immediate effect. Old grads., home folks, visitors, and otherwise, swelled the crowd into the thousands.

Before two-thirty arrived, a record breaking crowd was sending OLD JAY RAH ringing across the battlefield. The game was a royal one from the start to finish, from the kickoff to the last blow of the whistle. The Tigers started the game with a furious rush, almost before the Aggies had gotten their second wind. The first moments tallied bad for the Wildcats, the Missourians had crossed the goal for a touchdown, but did not succeed in doing the one thing which Missouri will probably never forget—kicking the goal. This gave the formidable Wildcat line no cause for fear, but instilled the old season pep and action into every play. The Wildcats tightened and never again did they allow the Missourians to come within the fifteen yard line.

In the second quarter the enthusiasm ran high when the Aggies netted a touchdown and when the never-failing Randall toe placed the oval directly between the bars. This scoring placed the Aggies one point to the lead.

The last half, although scoreless, was swift and thrilling; and held the spectators very close, regardless of the fact that old man winter strived to drive them from the field to warmth and shelter. The final whistle blew with the count of 6 to 7 placed in the records of K. S. A. C. history. The Tigers were vanquished and the Wildcats had placed upon the calendar of K. S. A. C. another red letter day.

The all-college dance given that night placed the cork in the old Home-Coming Pep Bottle for the coming year.

First Aggie Pop Night

THE KAPPA KAPPA GAMMA STUNT

A new custom was inaugurated at K. S. A. C. this year. The Y. W. C. A. County Fair took its place among the customs of the past, and Aggie Pop Night made its debut as a college event. The advisory board of the Y. W. C. A. offered a silver loving cup as a prize to the college organization presenting the best stunt on Aggie Pop Night. "Pop," we would have you understand, is just another way of saying, "Popularity."

Outlines of the stunts were submitted to a committee several weeks beforehand, and the eight best selected for presentation. Competition was keen and December the eighth brought forth a huge, happy, fun-seeking audience to witness the first Aggie Pop Night program. The stunts varied from the beauty of the "Factitious Follies of Fan Figures," to the Solemn mystery of the "Study in Black and White." Between events a two-hundred pound tot, who bore striking resemblance to a prominent faculty member, amused the audience with his African aulics. While the judges' decisions were being collected, the "Faculty Frolics" revealed some most graceful dancers among our dignified faculty ladies.

The judges' decisions, made upon the basis of beauty and originality, awarded third place to the Browning Literary Society, and to the Kappa Kappa Gamma sorority, first place, and the honor of winning the first Aggie Pop Night Cup.

Rough-Neck Day

Rough-neck Day at K. S. A. C. is one of those days in March, better known as the Ides of March, when he who does not don himself out in the worst looking and most old fashioned clothes that he has, must suffer the consequences. The Ides of March really prove to be the saddest of all college days to those who refuse and despise to come onto the campus in a garb which bespeaks their actual social standing.

It is a day which permits others to see us in a uniform that we can actually afford to wear. Nevertheless, the first time that this custom was attempted at K. S. A. C. the students met considerable opposition, but now that the real purpose and benefit of such an Ides of March Celebration is appreciated, the students each year look forward to this day of all days as one of revelry.

The snap-shot pages which appear on the following pages illustrate some of the costumes in which the students appear on this day.

We have often been criticised as students for such so-called ungentleman-like apparelling, but dear reader, please have a heart. We know that you would hate to have your relatives to appear on the campus this day and see you in such combinations of clothing and make-ups, but you can have this much of an excuse, "All the rest of them are doing the same, and they say that I must follow suit or run the gauntlet." So there you are.

The proof that

education pays

Reconstruction of Ahearn Field

WHETHER a spade was a spade or a spade was a shovel made little difference; when it had a K. S. A. C. student, faculty members, or a royal Aggie booster attached to the handle, it accomplished the purpose. The need for a new athletic field was generally felt and as a result December seventh was set aside for its creation. The classes were suspended, and every man was summoned, and woe be unto him who heeded not to the call of the spade.

At eight o'clock on the morning appointed, an industrial army of twelve hundred students, faculty members and townspeople, uniformed in old clothes and armed with picks and shovels, stood ready for the signal to dig. Up in the domestic science building another, this one of women students and faculty members, responded to the command of housewife's duties. As the morning advanced, re-enforcements arrived to swell the ranks of each. Picks, shovels, spades, twenty teams, four tractors, and an army of Aggie men, the combination of which worked wonders. Before noon the old field had been drained, and beyond it to the north, the construction of a new one was well under way. Before noon also the workers could not resist taking hungry glances toward the wagons which plied back and forth between the laboring mob and the domestic science building.

Under the management of the commissary department of the cadet corp, long tables were arranged on the center of the field. When the twelve o'clock whistle blew, tools were dropped and the workmen formed in lines and filed past the tables. Here each received his ration of buns, weinies, pickles, pie, doughnuts and hot coffee, doled out by the girls and the faculty women.

It was indeed a gala day. The entire college was assembled, women, men, students and faculty; the band played; kodaks clicked; movie cameras were cranked; tractors, large and small, rolled the dirt; and everyone from President Waters, and the deans, down to the greenest freshmen, radiated enthusiasm throughout the day.

At one-thirty the attack on the field was renewed. Evening found the old gridiron tiled and turtle backed, and a new practice field well under way to completion. In a word, it found a new athletic field. It also found twenty-five hundred tired people, some rubbing sore muscles and some whose sleep was filled with visions of hot coffee and doughnuts, but all conscious of a worthy work accomplished, and a new link forged into the chain of college unity.

CRACKER JACK SECTION

IN WHICH
WE TAKE A CRACK
AT EVERY

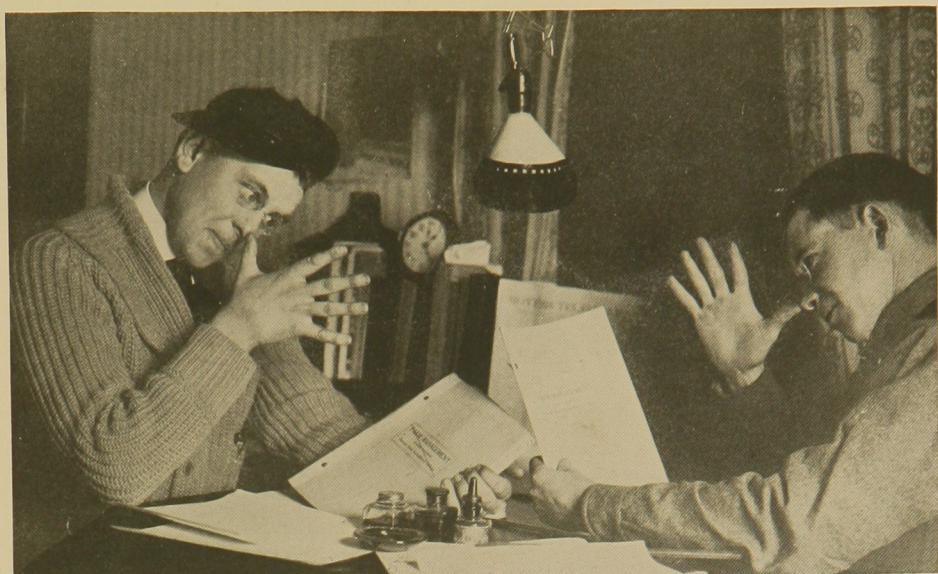

Gentle Reader

Before You Pass On—

Are you one of the Loyal Students who have contributed the material contained on the following pages, in order that this magazine section might be possible, or are you one who made it possible?

We have tried to make these pages spicy; if we have failed to do so you are the judge, and are free to make all criticisms. If some of your enemies have been neglected you are the one to blame, not the editorial staff, for the staff has had nothing to do with the old dry jokes and slams we thought were humorous. Do you think you could have done better? To think that we have neglected to tell the truth about you is lamentable indeed.

As a last request we ask that you do not bother to inquire who it was who had the nerve to put such stuff in print, in such a reputable publication as the Royal Purple. "If the shoe fits, wear it."

TYPICAL REPRESENTATIVES OF TAMMANY HALL

For the benefit of those who do not know what Tammany Hall was we take this opportunity to enlighten such unfortunate ones. Tammany Hall originated for the most noble purpose of naming the high political bosses in the class affairs of K. S. A. C. This organization proved to be effective during its infancy, but later its rank political methods proved to be its own destruction.

We know of no man who is more worthy of his B. S. degree than "Jeff" Flora, the mouth-piece of this organization.

RALPH VAN ZILE
Managing Editor

"RED" PLUMB
Editing Manager

(These men are the two individuals that the student body concedes to be the officials of this green sheet.)

This is the name given to a small green sheet issued each Thursday and placed on sale at the Palace Drug Store in Aggieville. The "Spot Light" having lost its establishment at K. S. A. C., it is supposed that this secrete green sheet was intended to take its place.

The fact that the United States had to be drawn into the European War will likely be a very hard blow to the future existence of this publication as well. It is even now reported that the editors (at least one) have gone to the training camp at Fort Riley.

Mamma doesn't know we have it.

Mutual understanding

A GOOD ONE ON HERB MILLER

Taken from the Chaperone Column of the Kansas City Star.

The information editor received this letter from this ingenuous youth:

"Kindly tell me why a girl always closes her eyes when a fellow kisses her."

The editor replied:

"If you will send us your photograph we may be able to tell you the reason."

AND "THROCK" THEY TELL US THAT YOU REALLY COMMITTED YOURSELF

"Hell is paved with good intentions, and lots of the college students are surely helping to keep the old town up to date."

SIGMA NUS vs. SIGMA PHI DELTAS

Hap: "Say, George, I hear that the Sigma Phis had a cigar box of pledge buttons during rush week down at the east college gate."

Sigma Phi Delta: "I hear that the Sigma Nuts are having trouble getting pledges because of the 'Kress Racket Store Advertisement' that is on the back of the Sigma Nu Button."

TED HALL vs. ELIZABETH ADAMS

Ted: "Elizabeth, let's play postoffice!"

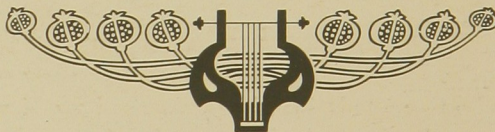

Elizabeth: "Why Ted, they don't play postoffice down at Maple Hill."

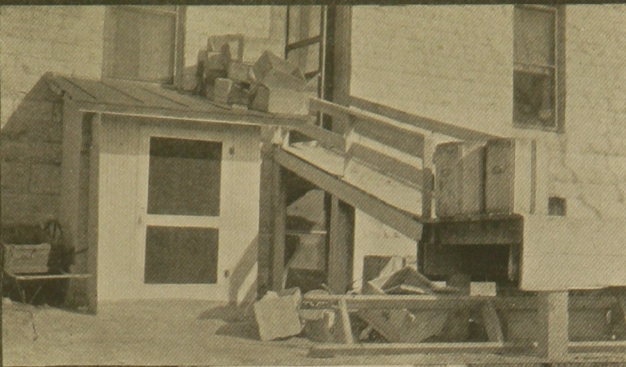

PLEASE INFORM US

Is an acceptance by "Proxy" as binding as an acceptance in person? (Ask Estella Blain).

CASE OF THE "K"

"Beeze," you're a wise man that you had enough forethought to pick a girl that could not wear your sweater without deranging its form.

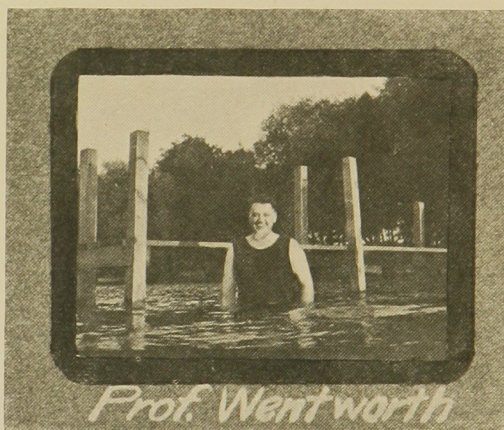

CAMPUS OBSCENES

This photograph illustrates the notable popularity of Dorothy Norris. She even spends her Sunday afternoons walking up and down Poyntz avenue with Batchelor Germany Shultz. Buenta, we are at a loss to know why you happen to be with Mr. Scott on this same occasion?

Prof. Wentworth, we have always heard that no one loves a fat man. So it is with the U. S. army. We have all the hopes in the world though that you will be able to reduce that 60 pounds of adipose surplus.

How to Get Notoriety

Date with Esther Nachman.
 Attend a Pi Kap celebration.
 Get excused from Rooky.
 Make 90 under P. J. Newman.
 Leave the Alpha Delt House at 9:30.
 Call Dr. Jackley's bluff.
 Stay until 8:30 at the "Dizzy House."
 Cook wienies at the City Park fire place.
 Take a blanket on a hike. (Not in a laundry bag.)
 Beat the Chi Omegas calling off dates.
 A date with a Chi Omega after dark without a chaperone. (On a hike).
 Devise a method how to dodge the Shorthorns in Main Hall.
 How to develop a reach of left arm. (Crudge Miller says he has discovered the most improved method up to date. Possibly Adelaide U. can better inform us.)

RARE ONES

Oh, what is so rare as a day in June?
 Sang an ancient poet in an old lampoon
 But now comes the answer all too soon—
 A ukelele that's all in tune.
 A sorority crew without a prune
 An Alpha Delt that doesn't spoon
 A Chi O hike by the light of the moon
 A Vet class with a gaboon
 A morning after when you are awake by noon
 All these O Poet, most opportune,
 Are a damnsiterarer than a day in June.

THE BASKET THAT WON THE CHAMPIONSHIP FOR THE AGGIES

FATHER SENDS SHERIFF TO DIRECT LOVE-SICK SON ON THE WAY BACK TO K. S. A. C.

Lawrence, Kan., March 21.—(Special)—Because Palmer Bressler, 19, was in love he could not attend school in Manhattan in accordance with his father's wishes. His mind was all too occupied to consider such inconsequential and sordid matters as the rotation of crops and fall plowing. Consequently, he came to Lawrence to have a better opportunity to visit the woman of his choice, a student in the university.

Father had a more agricultural mind, it seems, and spilled the beans, so to speak.

When Bressler had told her good night Sheriff Woodward called him quite suddenly into consultation. After some fatherly advice the boy was allowed to return to the Phi Kappa Alpha house, where he stayed until this morning, when he returned to Manhattan in company with an officer. It is understood he will re-enter school today.

TO KISS RECRUITS

**TWO SORORITY GIRLS ENLIST
FOR OSCULATORY SERV-
ICE AT HOME.**

SEVEN MORE MEN JOIN RANKS

**Examinations of Aspirants for Re-
serve Officers Will Be Temporar-
ily Suspended—Open Train-
ing Camp at Fort Riley
May 8.**

Army recruits leaving Manhattan for training camp will be rewarded by the kisses of Dorothy Norris and "Gabby" Woodward according to Corporal C. F. Sunderland of the local recruiting headquarters. The announcement was made that two of the city's fairest had volunteered for the service of giving the boys a proper send-off at the station. Enlisting is expected to pick up.

In this feature, Manhattan will be putting it all over most of the cities of the country and has only been anticipated by New York, where the method has exceeded the most sanguine expectations.

The rush, due partially to this new incentive has already begun.

LOAFERS ON FIELD DAY.

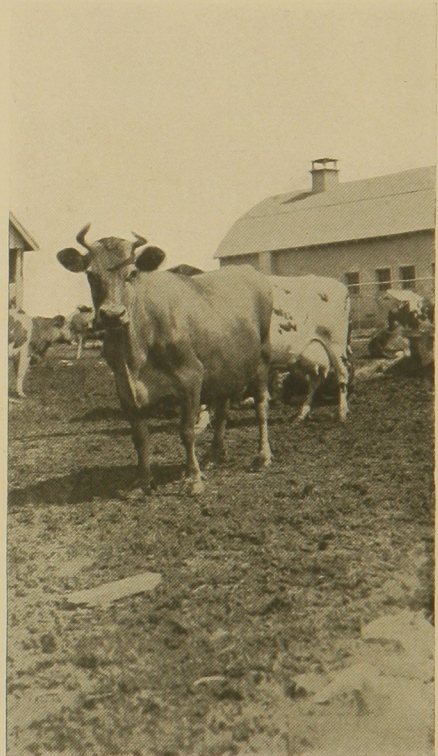

The seniors who put up the stall that they were handy with the pick and shovel on Ahearn Field Day were: Bert Barnes, Splints Dowling, Bux, Shorty Huffman, Beeze Cushman, O. K. Rumbel, MacMillan, Kess Kesinger, Joe Sweet, Rasty Wright, Addie Adams, Floyd Kelley, Duke Turner, Nina Mae Powell, Laura Ramsey, Merle Beeman, Mae Sweet, Vera McCoy, Paul Englund, Art Newkirk, Keith Kinyon, and Bill Paterson.

You may not be able to find yourself in this picture, but you were caught in the act just the same.

"SO-BOSS"

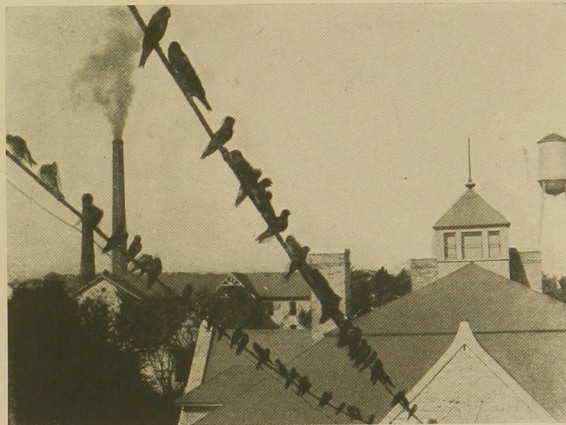

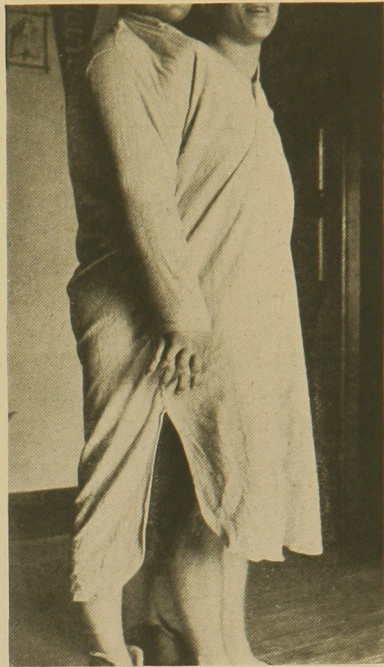

Listen, Can you guess who this boss is looking for?

She has been invited to furnish refreshments for a Beta Banquet and Nurse Hayes is late.

Germany Shultz's Night Gown

These two boys were very naughty to slip into your house, "Germany," just to get into your night gown. But listen, if you had a bet of ten with a fellow that you and another guy could get into your night clothes without tearing them, you wouldn't blame them, would you? Now "Mac," you should make this story complete by going to "Germany" and tell him who won the ten dollars.

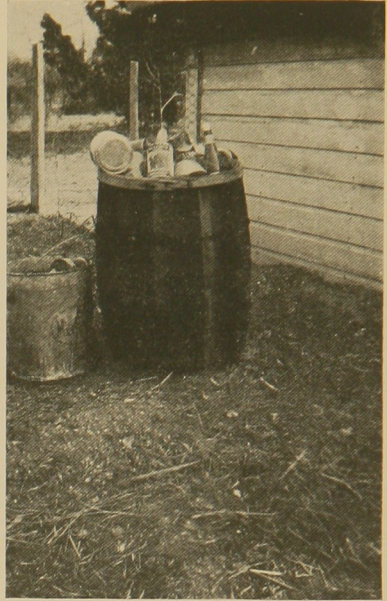

BIRDS' EYE VIEW OF THE CAMPUS

We have had several labels submitted for this picture. Among these some of them are: "L. C. Mosier's Outlook on Life," "The College Smoker," and "College Heights."

9

This picture was taken behind the residence of Dean Van Zile. What puzzles us, is this: Ralph, are you responsible for it or is it the fault of the city? Maybe it is because Congress passed the "Bone Dry Law" about four days before this picture was taken.

The "Tie" That Broke

17

Laura and "Rasty" we now believe that this once thought everlasting tie would never break, but you have after about six weeks duration convinced us that it is the truth. What puzzles us is, who did it? That's alright, Laura, we believe there is still a chance for you.

KAPPA GRIP

(A visiting member of Kappa): "Oh, are you a Kappa or a pledge?—I was about to give you the grip!"

(Miss Burt): "Oh, I have already had it."

CHI OMEGAS ATTEMPT TO RAISE THEIR GRADES

Charlotte Mayfield and Margaret Mann, two loyal members of Xix, strong supporters of all class activities, signed the petition passed around to the senior members of the Household Chemistry Class that they might go to the Annual Senior Sneak—but on second thought they decided that they should raise their grade standard, so that for the coming year the Chi Omegas might be the proud possessors of the Scholarship Urn. Therefore they remained at home that they might take the quiz as prescribed by H. W. Brubaker for that day. We are sad to relate but we are informed that when the grades were reported—"Poor" Charlotte and Margaret were the only members of the class who *flunked*. Girls, it is too bad, but we really feel that you deserved it.

THINGS WHICH WE WILL NEVER FORGET

Scorch Keith's walk.

Prof. Robert's bicycle.

Pete Netterville's big ears.

P. J. Newman's "paper" satchel.

Dean Willard's handbag.

Joe Sweet's, "Prexy" Hiatt's and "Bresty" Barker's *strut* down Main Hall.

Macklin's Radical ideas of *student life*.

The way the Shorthorns block Main Hall.

The fact that Leo C. Mosier and Molly Smith went hiking. (Student Council).

The difference in the educational attitude of Prof. Iles now and two years ago.

The front steps of the Main Hall on an icy morning.

Douglas A. Hines' laugh.

The sound of the Old College Bell.

How soon Leo C. Mosier lights his pipe after he gets off the campus.

How long will it take the "Spring" to run the "Brookover?"

Our Appreciation

We now wish to express our appreciation to all those who have made this publication possible. To name all those who have kindly participated in this undertaking would be most impossible. The material for this book has gone through the hands of several hundred people, and its actual publication has taken over thirteen months. We hope you will be pleased with our efforts, although we realize that we have made numerous errors, and that had we the work to do again, we feel that our experience would aid us greatly.

The following people deserve special mention:

Eugene Fairman, Artist, Professor N. A. Crawford, Advisor, Theo. Shuart, Cartoonist, Nina Mae Powell, Harold Snell, J. H. Cushman.

CHAS. D. THOMAS
The Editor.

Goodbye folks, we're through.
Now we'll wash our hands, you bet;
We will say adieu to you,
And not have one regret.
We're through with this publication,
For us, it's lost its fascination.
Its appreciation is up to you
So goodbye folks, goodbye folks,
Goodbye folks—we're through.

OUR HANDS ARE CLEAN

Our Advertisers

THE management of the 1917 Royal Purple feels justly proud of the manner in which the business men of Aggieville and Manhattan have given their support and co-operation to this publication. It is through their courtesy and patronage that we have been able to accomplish that which we have. We wish to acknowledge this support and ask the students to patronize the firms whose advertisements appear on the following pages. These merchants have contributed their support with the sincere belief that the students would be just in recognizing and showing their appreciation of it.

¶ As worthy of notice are the out-of-town advertisers who have shown their confidence in the student body and are liberal in giving their support to the college enterprise.

¶ We desire to express our thanks to our advertisers and recommend them to you for your patronage.

"Bureau," Supremacy Commands Attention!

LOOK back over the past years and ask yourself what other Engraving Institution, specializing in college annuals, has wielded so wide an Influence over the College Annual Field?

Ask yourself if College and University Annuals are not better today because of BUREAU PROGRESSIVENESS and BUREAU INITIATIVE?

You know that the BUREAU OF ENGRAVING, Inc. inaugurated the system of Closer Co-operation with college annual boards in planning and constructing books from cover to cover.

Our marked progress in this field commands attention. Our establishment is one of the largest of its kind in this country. Our Modern Art Department of noted Commercial Art Experts is developing Artistic Features that are making "Bureau" Annuals Famous for Originality and Beauty.

And again, the help of our experienced College Annual Department is of invaluable aid. Our up-to-the-minute system, which we give you, and our Instructive Books will surely lighten your Burden.

A proposition from the Natural Leaders in the College Annual Engraving field from an organization of over 150 people, founded over 17 years ago, and enjoying the Confidence and Good Will of the foremost Universities of this country, is certainly worth your while.

Is not the BUREAU OF ENGRAVING, Inc., Deserving of the Opportunity of showing what it can do for - YOU?

Kansas City School of Law

(TWENTY-SECOND YEAR)

This school offers an opportunity for the student to secure a legal education under the most favorable conditions. HE MAY ENTER A LAWYER'S OFFICE and thus obtain the practical experience so essential to success at the bar; or he may carry on some independent work and thus be self-supporting while pursuing his legal studies. These ends are accomplished because this school is located in a metropolis, and because the sessions are held principally at night. A three years' course leads to the degree of LL.B. Write for catalog containing full information.

Vacation Trips

Recreation and recuperation have come to be a part of the life of Americans—the question no longer is—“Can I afford to take a trip?”—but, “Where shall I spend my vacation?” A season of change every summer is not only a matter of pleasure—but of profit as well.

We hope to be permitted to help you decide the question of that vacation. Expert information is yours for the asking—regarding many delightful rail and water trips to resorts in Wisconsin, Michigan, Minnesota, the Great Lakes, down the St. Lawrence or the many Atlantic Seacoast Resorts. Also trips to Colorado, Rocky Mountain National Park, California and the Pacific Coast.

Low round trip fares to hundreds of points East and West, beginning June 1st.

THE MARSHALL THEATER

Every Winter Day Is An Outdoor Day in California

You who prefer golf, automobiling, yachting, surf-bathing or any outdoor pastime to a "shut-in" winter fraught with drafts and chills and colds, need not postpone your favorite sport until warm weather—

California solves the winter problem by offering summer weather all winter long, green vegetables, fruit from the trees and produce fresh daily and at summer prices. Furnished bungalows rent for much less than they do in Kansas City—everything urges you to spend the winter in California.

Union Pacific System

provides the ideal travel route to San Francisco, the starting point for all California tours. Daily train service, through sleeping cars, dining cars unexcelled and route short and direct.

For literature about inexpensive living in California and information about train service, apply to

Tractors, Harvesters and Threshing Machines

Give Best Results When Properly Lubricated

A machine is only as good as the oil which keeps it running smoothly; that is, care and judgment should be used in selecting the proper lubricating oils and grease. Our long and varied experience in manufacturing oils expressly for agricultural machinery enables us to offer you reliable and satisfactory products.

Standard Gas Engine Tractor Oil

Is an oil of great durability. It has the correct body to give perfect lubrication under high temperature conditions existing in internal combustion engines using kerosene for fuel.

Standard Gas Engine Oil

Insures perfect lubrication of all types and makes of stationary gas engines and tractors where gasoline is used for fuel. Its friction-reducing properties give more power, smoother running and longer service to all working parts. This is the all-important factor, as recognized authorities claim that forty to fifty per cent of the fuel is consumed in overcoming friction.
